**Indiana American History Standards Map  
Grade Eight & Grade Eleven - American History  
United States History**

**United States History Courses in Indiana - Grades 8 & 11**

In Grade 8, students focus upon United States history, beginning with a brief review of early history, including the Revolution and Founding Era, and the principles of the United States and Indiana constitutions, as well as other founding documents and their applications to subsequent periods of national history and to civic and political life. Students then study national development, westward expansion, social reform movements, and the Civil War and Reconstruction.

In Grade 11, a two-semester course builds upon concepts developed in previous studies of American history and emphasizes national development from the late nineteenth century into the twenty-first century. After reviewing fundamental themes in the early development of the nation, students study the key events, people, groups and movements in the late nineteenth, the twentieth and early twenty-first centuries as they relate to life in Indiana and the United States.
